

6 - 1/2" Light Duty High Leverage Cable Cutter

Cuts wire, rope, cord, tape, cardboard, wood sticks, dowel rods and other soft material

These cutters are designed to cut wire easily by providing higher leverage through pliers like handles. Its blades are made of stainless steel from Japan (SUS 420J2) with heat treatment through a proprietary manufacturing process to harden (HRC 50-54) the wire cutting notch needed to last. The extended tang provides cutting efficiency. The handles are made of PP and TPR over molded.

Power Cord

Solar Panel Power Cable

Marine Battery Cable

PVC Pipe

MODEL: ATi - 812

Full Length	Cutting Length
6.5" (165 mm)	0.38" (10 mm)

Special Features

- Easily cut soft stranded cable up to 9mm OD (e.g., SOOW 14/4 or SJOOW 12/3)
- Cut soft stranded wire, vinyl/nylon tubing, PVC conduit, rope, cord, wood sticks, dowel rods and other soft material
- Sharp blades to shear materials easily; spring loaded to ease repetitive action, safety lock
- Long handles and extended tang for efficient force transfer
- Ambidextrous

Market Segments / Applications

- Electrical
- Communications
- Controls
- Marine
- Video
- Security
- Computers
- Electronics / Power Cables
- Solar
- HVAC
- DIY
