

Non-stick Stainless Steel Comfort Grip Stationary Scissors

For Office, School, Home, Kitchen, Arts Crafts, Sewing

Cuts variety of materials such as paper, cardboard, fabric, vinyl, canvas

These are a fine quality stainless steel scissors and are meant for clean cuts into a variety of soft materials where ordinary scissors would wear out quickly. Its blades are made of high carbon alloy steel from Japan with heat treatment through a proprietary manufacturing process to harden the cutting blades for durability. The blades are coated with Teflon[®] for non-stick operation and lubrication during cuts. They are just as ideal to use for clean and no-mess cuts.

Special Features:

- Cuts variety of materials such as paper, cardboard, fabric, vinyl, canvas and more
- Teflon[®] coating for non-stick cutting
- Sharp blades to shear materials easily
- Blades hardened to HRC 50-54
- High carbon alloy steel from Japan
- Compact and lightweight

Applications:

- Office
- Home
- School
- Stationary
