

Heavy Duty Utility Shears with Cutting Notch

Big Bow Re-sharpenable Bent All-Purpose Industrial Utility Shears | 9-3/4 inch and 11-3/8 inch

Cuts fiberglass, carbon fiber, rope (poly or nylon), canvas, leather, plastic, and more

Ascend Tools' heavy duty utility shears will cut heavy duty materials and provide clean trims for items ranging from sailcloth, fiberglass, carbon fiber, rope (poly or nylon), canvas, and leather to breather fabric, plastic, nylon, upholstery, craft materials, plastics, floral, wire and more. They feature long ultra-sharp blades ideal for cutting long swathes even through multiple layers of thick and heavy fabrics.

These shears are lightweight and have comfortable grip handles. Its blades are made of high carbon steel from Japan and are hardened to HRC 54-50 needed to cut high-strength materials. The ergonomically designed large grip-ring delivers more power with reduced fatigue and wrist strain, especially in repetitive cutting jobs. The tang on the blades is long to provide cutting efficiency.

Special Features:

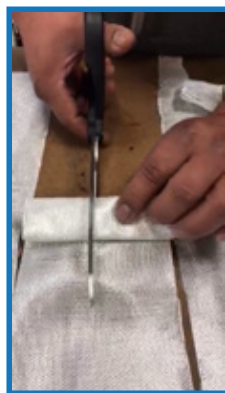

- Sharp blade to shear fabric easily, excellent for multi-layer cutting
- Notched blade for cutting round material
- Micro-serrated blade to grip material for non-slip cut
- Non-serrated blade can be sharpened to extend life
- Extended tang for durability and efficient force transfer
- Thermo-plastic elastomer handles for a comfortable non-slip grip
- Adjustable pivot point to modify blades tension
- Ambidextrous

Market Segments / Applications:

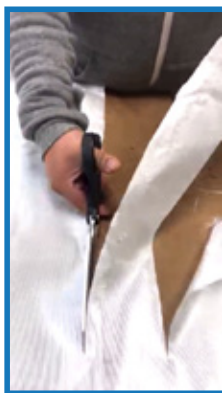

- Marine (fiberglass, carbon fiber, fiber weaves, ropes)
- Aviation (fiberglass, carbon fiber and prepregs)
- Avionics (breather fabric)
- Sailing / Gliding / Parachuting (parachute and balloon cloth)
- Upholstery (leather, leatherette)
- Energy – wind turbines (fiberglass)
- Ropes, netting, webbing
- Tailoring
- Arts and Crafts
- Industrial (shop scissors)

Model: SHR-8347 / SHR-8349

SKU	Full Length	Cutting Length
SHR-8347	9-3/4" (243 mm)	4-3/8" (110 mm)
SHR-8349	11-3/8" (288 mm)	6" (152 mm)

Fiberglass - 6 layers

Fiberglass - 1 layer

Nylon Rope

Carbon Fiber
